Entered at the Kingman Postoffice as Second Class Mail.

C. W. Herndon, County Attorney, was called to Oatman Thursday last on legal business.

Mr. and Mrs. T. E. Pollock were Kingman visitors this week. They also visited the gold center of the county.

Judge J. E. Ellis was in Holbrook last week trying some cases that were on the disqualified list of Judge Sapp's court.

H. H. Watkins returned from a short visit to Los Angeles last Saturday, where he looked after important business matters.

Frank O'Dea came in from Todd Basin this week to get medical treatment. He was suffering from that delightful complaint known to the general suffering public as "shingles."

J. C. Wilson was elected a member of the board of education of the county high school at the election last Saturday, there being no opposition. Allen E. Ware was elected trustee of Kingman school district.

E. S. Clark, the well known Prescott lawyer, was a Kingman visitor this week, having come here to look after legal matters. He also visited the Oatman section and was surprised with the size of the boom that has struck the camp.

Judge Sidney Sapp, of Navajo county, heard a number of cases in the Superior Court of this county, in which Judge Ellis was disqualified. As some of the cases on the docket were not ready for trial and others were in process of liquidation, only one or two of the causes were tried.

Arthur Alman, a business man of Needles, was a Kingman visitor last Wednesday. He reports that Needles is prosperous, much of its prosperity being brought about by the boom at Oatman. Five stages are running daily from Needles to the big gold camp of the Blue Ridge company.

W. C. Babcock has entered an enlarged homestead east of Hackberry and will at once set about reclaiming it. He expects to find water at a superficial depth and believes that he can pump water almost as cheaply as water is furnished the Salt River valley farmers by the Roosevelt project.

Tomorrow Kingman and San Bernardino are to have a ball game that ought to attract the local fans. Kingman boys have been practicing and have developed some exceptionally good players. The San Bernardino club is said to be champions of southern California, which would make them hard people to down.

Cleanup Day.

At the last meeting of the Thursday Afternoon Club it was decided to set Friday April 8th apart as clean up day and members of the club earnestly request the people of the town to co-operate with them in this undertaking. Arrangements are being made by a committee to take charge of the affair.

Rheumatism Yields Quickly to Sloan's.

You can't prevent an attack of Rheumatism from coming on, but you can stop it almost immediately. Sloan's Liniment gently applied to the sore joint or muscle penetrates in a few minutes to the inflamed spot that causes pain. It soothes the hot, tender, swollen feeling, and in a very short time brings a relief that is almost unbelievable until you experience it. Get a bottle of Sloan's Liniment for 25c. of any Druggist and have it in the house --against Colds, Sore and Swollen joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.

It is expected that Monday next the board of supervisors will be called upon to call an election to vote bonds for further road work, as well as for the erection of a high school building. Both these objects are of vast interest to the people of Mohave county. It was the voting of good road bonds and their expenditure on the roads of the county that brought us wonderful amount of advertising and the fact that Mohave county has done more legitimate road work than any other county in the state has been of material benefit, as it showed that the people believed in the county and its wonderful resources. Now we are still believers and we want our people to get out and vote bonds sufficient to give out roads the crown and polish necessary to make the upkeep as low as possible. More roads are necessary to connect up with the main artery, and one thing is certain, we must build a road into the gold camps of Oatman and Goldroad, as well as into the districts where it will reduce the cost of haulage to and from the railroad. A reduction of haulage from mine to railroad of from fifty cents to one dollar per ton means a whole lot of money to a big low grade proposition in a year, and the cutting of freight rates to Gold Road and Oatman of from two to four dollars would mean many thousands to the big mining companies operating there. Every dollar cut from the operating cost of a mine means greater things for the mine and in fact the whole district. It also makes possible the handling of lower grade ore and may mean the bringing in of new capital that could not be attracted in any way except the low mining and milling costs that good roads may make possible. And we need the high school. If ever a county in the United States needs school facilities it is Mohave county. Let us give the children the chance that the wealth and prominence of Mohave county entitles them. It is the one thing that we owe to the rising generation--good schools and proper influences. We owe it to the teachers to give them better facilities and well ventilated buildings in which to house and teach these future citizens of our great state. Let no votes be cast against these issues.

May Day Ball.

The Catholic ladies of Kingman are to give a May Day dance in the Elks Opera House, further notice of which will be given later.

Senator Henry F. Ashurst in Kingman

Senator Henry F. Ashurst arrived in Kingman Tuesday last from San Francisco, where he had been visiting the Exposition, and visited with the people during the day. In the evening he addressed the Kingman Chamber of Commerce. Wednesday in company of Thomas Devine he visited Gold Road and Oatman, returning in the evening. He was much impressed with the big gold camps and expressed the opinion that Mohave county was sure to be one of the greatest mineral sections of the state. Wherever he has been inquiry was being made of Mohave county, which indicated that a boom was sure coming this way. Thursday he departed to his home in Prescott, but intends visiting all parts of the state prior to returning to Washington.

New Postmaster.

Last Thursday E. F. Thompson assumed the duties of postmaster of Kingman succeeding J. N. Cohenour, whose term of office had expired. Mr. Thompson was Kingman's first postmaster away back in 1883, and was afterward postmaster at Mineral Park. Ed Thompson has always been a booster for Mohave county, its mining and other resources having been his hobby. His recognition by the democracy in the appointment as postmaster is deserved and that he will make good in that position is an assuredty.

The Methodist Episcopal Church.

Rev. Thomas H. Dodd, Minister.

Sunday School--10:00 a. m.
Preaching Service--11:00 a. m.

Miner's Lien Law.

Contrary to the expectation of the people the miner's lien law does not relieve mines under lease, bond or option from the lien of the miners for wages, but makes all mines operated under the law liable for not to exceed two weeks wage of the miners. If the miner works after two weeks without being paid off he does so at his own peril, as the law makes it obligatory on the leaser to pay off every two weeks, and no pay day can be passed either by the miner of employee to fix on the mine more than the two weeks wage. The old law giving lien rights to the material man or storekeeper has been repealed.

Days of Services at the Catholic Church.

Easter Sunday, April 4th.
Communion Mass at 7:00 a. m.
High Mass at 10:00 a. m.
